## Project Proposal: Personal Portfolio

### Background

I propose to develop a personal portfolio for me. This portfolio aims to showcase my skills, achievements, and experiences in a visually appealing and user-friendly manner. The website will serve as a comprehensive tool for me to present me to potential employers, clients, and collaborators.

### Objective

- To create an online platform that highlights my educational background, skills, and achievements.
- To provide a professional and aesthetically pleasing design that aligns with my personal brand.
- To make the portfolio accessible and easy to navigate for potential person and collaborators.

### Scope

- Development of a responsive website with multiple pages, including a homepage, about me, skills, projects, and contact page.
- Inclusion of a gallery or portfolio section to showcase projects, works, or achievements.
- Implementation of a contact form to facilitate communication with potential employers or collaborators.

### Timeframe

	Description of Work	Start and End Dates
Phase One	Requirement gathering and initial designing.	Week 1
Phase Two	Website development	Week 2-3
Phase Three	finishing	Week 4

### Conclusion

By creating a professional and visually appealing personal portfolio, I aim to enhance my online presence and provide a valuable tool for career development. This project aligns with my aspirations and will contribute to showcasing my skills and achievements effectively.
